

Imogen Bailey

Actor

Biography

Imogen Bailey is an actress who is outspoken on issues of social justice and human rights. Imogen's devotion to the animals was recognized by the People of Ethical Treatment for Animals when she became the sole recipient of the International Humanitarian award for Asia Pacific. Imogen has also been recognized by the 'Who's Who of Australian Women'.

Despite being a household name in Australia for ten years, Bailey has never ceased to surprise us with her ability to reinvent herself, take on new challenges and break all the rules. Whilst we have known her as our favorite cover girl and most recently as an actor, Imogen has always taken on projects that allow her to break through the bombshell mold. She says it is important to be a role model for young women.

Her participation in 'Go Back to Where You Came From' was no exception. Imogen dives in headfirst and fights hard for what she believes in. Her bravery, intelligence and backbone always shine through.

"I am 100% committed to this cause for life. The reason I decided to become an ASRC Ambassador is because I believe there is still an audience that does not know where to go for accurate information about asylum seekers. I feel it would be irresponsible of me if I didn't do something about this issue."
